Claims 3-6 are allowed because they depend on claim 2.

Claim 14 is amended by rewritten in independent form including all the limitations of the base claim and any intervening claims. Thus, claim 14 is allowed because the prior art of record fails to disclose or suggest a voltage detecting circuit includes, in combination with other limitations, a first output circuit comprising two enhancement mode MOS transistors and a second output circuit comprising two depletion mode MOS transistors with the recited connections set forth therein.

Claims 15-17 are allowed because they depend on claim 14.
